Spiritual Friendship Wesley Hill, 2015-04-14 Christianity Today Book Award Winner Friendship is a relationship like no other Unlike the relationships we are born into we choose our friends It is also tenuous we can end a friendship at any time But should friendship be so free and unconstrained Although our culture tends to pay more attention to romantic love marriage family and other forms of community friendship is a genuine love in its own right This eloquent book reminds us that Scripture and tradition have a high view of friendship Single Christians particularly those who are gay and celibate may find it is a form of love to which they are especially called Writing with deep empathy and with fidelity to historic Christian teaching Wesley Hill retrieves a rich understanding of friendship as a spiritual vocation and explains how the church can foster friendship as a basic component of Christian discipleship He helps us reimagine friendship as a robust form of love that is worthy of honor and attention in communities of faith This book sets forth a positive calling for celibate gay Christians and suggests practical ways for all Christians to cultivate stronger friendships

The Great Good Place Henry James, 2004-06 Dane picked out of his dim past a dozen halting similes The sacred silent convent was one another was the bright country house He did the place no outrage to liken it to an hotel he permitted himself on occasion to feel it suggest a club Such images however but flickered and went out they lasted only long enough to light up the difference An hotel without noise a club without newspapers when he turned his face to what it was without the view opened wide

Bowling Alone: Revised and Updated Robert D. Putnam, 2020-10-13 Updated to include a new chapter about the influence of social media and the Internet the 20th anniversary edition of Bowling Alone remains a seminal work of social analysis and its examination of what happened to our sense of community remains more relevant than ever in today's fractured America Twenty years ago Robert D Putnam made a seemingly simple observation once we bowled in leagues usually after work but no longer This seemingly small phenomenon symbolized a significant social change that became the basis of the acclaimed bestseller Bowling Alone which The Washington Post called a very important book and Putnam the de Tocqueville of our generation Bowling Alone surveyed in detail Americans changing behavior over the decades showing how we had become increasingly disconnected from family friends neighbors and social structures whether it's with the PTA church clubs political parties or bowling leagues In the revised edition of his classic work Putnam shows how our shrinking access to the social capital that is the reward of communal activity and community sharing still poses a serious threat to our civic and personal health and how these consequences have a new resonance for our divided country today He includes critical new material on the pervasive influence of social media and the internet which has introduced previously unthinkable opportunities for social connection as well as unprecedented levels of alienation and isolation At the time of its publication Putnam's then groundbreaking work showed how social bonds are the most powerful predictor of life satisfaction and how the loss of social capital is felt in critical ways acting as a strong predictor of crime rates and other measures of neighborhood quality of life and affecting our health in other ways While the ways in which we connect or become disconnected have changed over the decades his central argument remains as powerful and urgent as ever mending our frayed social capital is key to preserving the very fabric of our society
