Grid and Cooperative Computing Minglu Li, Xian-He Sun, Qianni Deng, Jun Ni, 2004-04-20 Grid and cooperative computing has emerged as a new frontier of information technology. It aims to share and coordinate distributed and heterogeneous network resources for better performance and functionality that can otherwise not be achieved. This volume contains the papers presented at the 2nd International Workshop on Grid and Cooperative Computing GCC 2003 which was held in Shanghai P R China during December 7-10 2003. GCC is designed to serve as a forum to present current and future work as well as to exchange research ideas among researchers developers practitioners and users in grid computing. Web services and cooperative computing including theory and applications. For this workshop we received over 550 paper submissions from 22 countries and regions. All the papers were peer reviewed in depth and qualitatively graded on their relevance originality significance presentation and the overall appropriateness of their acceptance. Any concerns raised were discussed by the program committee. The organizing committee selected 176 papers for conference presentation full papers and 173 submissions for poster presentation short papers. The papers included herein represent the forefront of research from China USA UK Canada Switzerland Japan Australia India Korea Singapore Brazil Norway Greece Iran Turkey Oman Pakistan and other countries. More than 600 attendees participated in the technical section and the exhibition of the workshop.

Slender PCI Fuminobu Yoshimachi, 2020-07-15 This book offers a valuable contribution to the field of minimally invasive coronary intervention presenting the latest developments in slender catheters their development and the related research findings. With the growing interest in trans radial interventions TRIs and distal radial approach Slender PCI has been popular in Japan. Although Slender PCI started with using a small diameter catheter of a 5Fr Guiding Catheter recently it becomes a generic term for all minimally invasive catheter interventions. Slender PCI not only makes less painful but also reduces exposure to radiation and contrast agents. In addition the book highlights the distal radial approach 5Fr guiding catheter for treating complex lesion 4Fr guiding catheters 3Fr diagnosis catheters. The authors share their experiences and know how throughout providing abundant illustrations to enhance readers understanding.
